1873.

In these Two Collections for the two days sale, are a very fine assortment of American as well as Foreign, many in very fine condition, some very rare and sought for to complete collections, and as coins are every year becoming scarcer, there being an increased number of collectors. Many College and University Students are making their selections. Coins which a few months ago had small value are being brought in market and are demanding increased prices.

This Catalogue has a splendid assortment, and the opportunity is now before the public to select coins from a great variety which have never been offered at a public sale, but have been in private hands for years.

Hoping that Collectors will appreciate this selection, many of the Roman Coins are in splendid condition and are extremely rare, original, and have been in in a private collection for a long time.

Give them a thorough examination, and for a greater variety this opportunity may never happen again.
